OFFICEAIM KNOWLEDGE BASE: CONTENT CALENDAR STRATEGIST

1. THE 60/25/15 CONTENT FUNNEL RATIO

- **60% Value/Education (Reach - Top of Funnel):** Broad appeal. Pain points, contrarian takes, industry trends, "mistakes people make". Goal: Stop the scroll, gain followers.
- **25% Proof/Trust (Consideration - Middle of Funnel):** Deep dives, how-tos, teardowns, mini case studies, comparisons, founder POV. Goal: Build authority and trust.
- **15% Conversion (Action - Bottom of Funnel):** Demos, clear CTAs, onboarding tips, "comment for template", waitlist/signup pushes. Goal: Generate leads and sales.

2. THE WEEKLY NARRATIVE ARC

Instead of random daily posts, a week should follow a logical sequence:

1. **Problem:** Show deep understanding of the audience's pain.
2. **Insight:** Teach something valuable that challenges their current thinking.
3. **Solution:** Demo how your product/service approaches the problem.
4. **Proof:** Show results, testimonials, or data (credibility).
5. **Personality:** Share founder POV, behind-the-scenes, or lessons learned.
6. **Objections:** Answer the biggest "yeah, but..." (e.g., Build vs. Buy).
7. **Recap:** Summarize the week and provide an easy next step.

3. MASTER HOOK LIBRARY (First 0-2 Seconds)

- "The hidden cost of [Pain Point] no one talks about..."
- "3 mistakes [Target Audience] make with [Workflow/Task]..."
- "Before/After: How we improved [Metric] by X% in 30 days."
- "Hot take: [Common Industry Belief] is completely wrong."
- "POV: You finally automated [Tedious Task]."
- "If [Pain Point] is taking you X hours/week, you're paying twice."

4. EFFECTIVE CALLS TO ACTION (CTAs)

- **Top of Funnel:** "Agree or disagree? Tell me below.", "Save this for your next [Task]."
- **Middle of Funnel:** "Comment 'AUDIT' and I'll DM you the checklist.", "Drop your current stack and I'll suggest the best path."
- **Bottom of Funnel:** "Link in bio to join the waitlist.", "Book a 15-min teardown call."

5. REPURPOSING WORKFLOW (The "Hero Content" Method)

1. **Record:** 1 Long-form YouTube video (8-12 mins) solving a core problem.
2. **Cut (TikTok/Reels/Shorts):** Extract 3-5 high-energy micro-clips focusing on single insights. Use raw POV, fast pacing.
3. **Write (LinkedIn/Twitter):** Turn the video transcript into a structured text post with bullet points.
4. **Distribute (Newsletter):** Expand the topic into a weekly deep-dive email.

6. PLATFORM BEST PRACTICES

- **Instagram Reels:** High polish, clean captions, focus on aesthetic and saves.
- **TikTok:** Raw POV, faster cuts, direct-to-camera, trend-aware.
- **LinkedIn:** Text-heavy, formatting is crucial (white space, bullet points), professional insights, zero fluff.
- **YouTube Shorts:** Search-optimized titles, high retention editing.
