OFFICEAIM KNOWLEDGE BASE: SOCIAL MEDIA COPYWRITER

1. CORE COPYWRITING FRAMEWORKS

A. PAS (Problem - Agitate - Solve)

- **Problem:** Call out a specific pain point your target audience is experiencing right now. (e.g., "You are working 10 hours a day and still falling behind.")
- **Agitate:** Pour salt in the wound. Explain the hidden costs, the emotional toll, or why their current approach is failing. (e.g., "While you answer emails, your competitors are automating them and stealing your clients.")
- **Solve:** Present your product, service, or insight as the logical, inevitable solution.

B. BAB (Before - After - Bridge)

- **Before:** Describe the frustrating, inefficient, or painful current reality.
- **After:** Paint a vivid picture of the ideal state where the problem is completely solved.
- **Bridge:** Explain the exact system, tool, or mindset shift required to cross from the 'Before' to the 'After'.

C. ELA (Emotion - Logic - Action)

- **Emotion:** Hook the reader by triggering a primal emotion (Fear of Missing Out, Desire for Status, Frustration).
- **Logic:** Quickly pivot to rational arguments, data, or undeniable facts to justify the emotion.
- **Action:** Tell them exactly what to do next with a low-friction Call to Action.

2. SOCIAL MEDIA FORMATTING RULES (LINKEDIN & X)

- **The "Broetry" Format:** Use 1 to 2 sentences per line. Hit 'Enter' frequently. White space is your friend—it makes the text scannable and visually appealing.
- **The Hook (First Line):** Must be disruptive, contrarian, or highly relatable. Never start with "Today I want to talk about...".
- **Visual Anchors:** Use symbols like ❌ and ✅ to show contrast quickly.
- **Bullet Points:** Use them to speed up the reading pace in the middle of the post.

3. MASTER HOOK EXAMPLES

- "If you are still doing [Task] manually, you are paying with your time."
- "The biggest lie we are told about [Industry Topic] is..."
- "I used to struggle with [Pain Point]. Here is the 3-step system that fixed it:"
- "Most [Target Audience] fail because they focus on [Wrong Thing]. Focus on this instead:"

4. EFFECTIVE CALLS TO ACTION (CTAs)

- **High Friction (Sales):** "Click the link in my bio to enroll."
- **Low Friction (Engagement/Algorithm Boosting):** "Comment 'SYSTEM' and I will DM you the exact template I used."
- **Community Building:** "Do you agree? Let me know your experience in the comments."

5. THE PSYCHOLOGY OF PERSUASION

- **Show, Don't Tell:** Don't say "I am productive." Say "I finished my weekly proposals in 30 minutes."
- **The Enemy:** Always unite your audience against a common enemy (e.g., "burnout", "bad bosses", "inefficient software", "traditional thinking").
- **Clarity over Cleverness:** If a sentence is trying too hard to sound smart but loses the core message, rewrite it to be simple.
